BAJAJ HOLOGRAPHICS (I) PVT. LTD.

MODEL No.
BHI-WW3DLE-1600

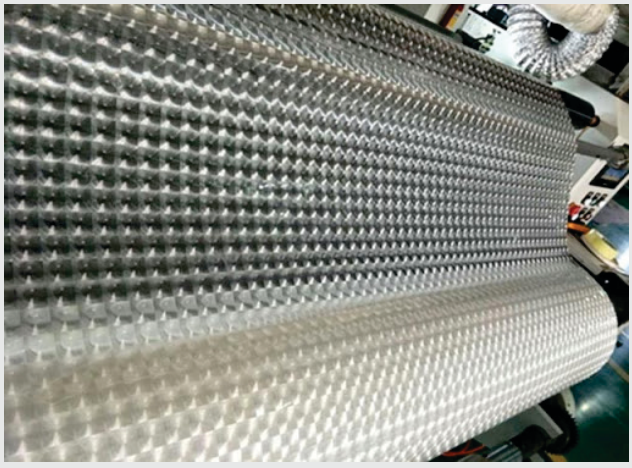

WIDE WEB 3D LENS EMBOSSING MACHINE

WIDE WEB 3D LENS EMBOSSING MACHINE (MODEL NO. BHI-WW3DLE-1600):

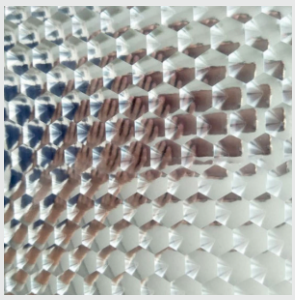

It's the special equipment for producing 3D Lens BOPP/LD/PVC film. It works to transfer the 3d lens using electrotyped nickel plate onto the above mentioned film through heat and-presserure technology.

PLC control system, quick to master roller without oil leakage, no affecting on master plate seam during heating and pressing no wrinkling and shrinking during embossing only 1 meter long film wasted for starting embossing energy-saving and multi functional it's widely applied to printing and packing industry as material are ideal for decorating and anti-counterfeit purpose.

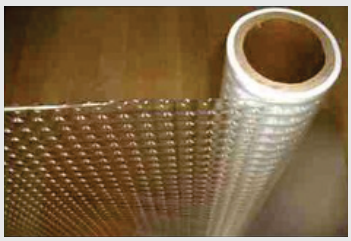

TECHNICAL SPECIFICATION	
Embossing Type	Soft
Material Type	BOPP/LD/PVC
Image Size (Maximum)	1600mmx600mm Repeat
Embossing Speed (Max.)	50 Meters/Minute
Power Supply	60KW (220/110 Volts)
Dimension (L X W X H)	10' X 8' X 6'
Weight	8000 Kgs.
